

LinguaFolio Training Modules

A project funded by NC DPI
In collaboration with NCSSFL

Module 3: Activity 1

Teacher Reflection Activity

Before we talk about students, let's think about ourselves as learners.

Group: If you are training with others, when you're finished, share your answers and compare with the possibilities listed online.

Individual: If you are working alone, review your answers and think about similarities and differences in learning styles and how the activities and strategies relate to them. Compare your answers with the possibilities listed online.

1. How did you learn your second language?
2. In the classroom, what learning activities helped you learn?
3. What helps you now as a lifelong learner?

Once you have finished this activity, look at some possible answers included with the training.
